SUMMARY

Software Developer with 1.6 years of experience delivering scalable Flutter applications across multiple domains, including fintech. Contributed to high-traffic products (10M+ users), emphasizing performance, user experience, and code maintainability.

EXPERIENCE

Management Trainee – Flutter Developer

Jan 2025 – Jul 2025

5paisa Capital Ltd, Mumbai – Full-time

- Implemented the Position Grouping feature in the trading app, allowing users to organize positions by underlying or expiry, improving overall portfolio clarity.
- Improved the Mutual Fund payment flow by integrating UPI Intent for faster and more seamless transactions.
- Utilized Firebase Remote Config to dynamically control UI element visibility and ordering; integrated CleverTap to track user actions and support analytics-driven decisions.
- Led typography standardization across the app, resolved multiple UI inconsistencies, and enhanced overall design coherence.
- Developed features using Bloc with a repository-based architecture for robust state management and modular code structure.
- Maintained codebase and tracked tasks using Team Foundation Server (TFS) for version control and project management.

Flutter Developer

Oct 2023 – Oct 2024

T7E Aftermarket Connect Pvt Ltd, Mumbai – Full-time

- Built and maintained multiple mobile applications published on the Play Store and App Store, with individual apps reaching 50k–100k+ downloads.
- Integrated third-party services including Google Maps, OCR, and Firebase for push notifications and user analytics.
- Implemented secure API communication using encryption protocols to protect sensitive data.
- Translated Figma designs into responsive, pixel-perfect Flutter UIs optimized for multiple screen sizes.
- Collaborated using Git, Bitbucket, and Jira for version control, code reviews, and agile task management.

EDUCATION

SIES College of Arts, Science & Commerce

Aug 2020 – Jun 2023

Bachelor of Science, Computer Science
CGPA: 9.3/10

TECHNICAL SKILLS
